CAREER OBJECTIVE

Passionate Computer Science Engineering student eager to secure an internship where I can apply my knowledge of programming, data structures, and problem-solving. Enthusiastic about learning new technologies and contributing to innovative projects while leveraging my creativity in design and development.

WORK EXPERIENCE

PROJECTS

AI Content Detection System:

- Developed a system to detect AI-generated content using Python and machine learning techniques.
- Implemented NLP-based algorithms to classify text authenticity.
- Worked on improving detection accuracy through dataset training and model refinement.

Waste Management System (Award-Winning Project):

- Designed and developed a system that converts daily kitchen waste into compost within a month.
- Won First Prize in the "Best Out of Waste" competition in the first year of engineering.
- Focused on sustainable waste management and eco-friendly practices.

HACKATHONS & WORKSHOPS

- **Hackathon Participation:** Took part in multiple hackathons to solve real-world problems and enhance coding skills.
- **Workshops:** Attended AI/ML, Canva, and Suba Base workshops to expand knowledge in these domains.

EXTRACURRICULAR ACTIVITIES

- Passionate about designing and crafting.
- Strong inclination toward creative projects involving design and development.
- Enthusiastic about learning and adapting to new technologies.

EDUCATION

B.Tech Computer Science Engineering
(Minor in Business Economics & Honors
in Data Science)

[S. B. Jain Institute of Technology,
Management & Research](#)

📅 August 2023 - June 2027

📍 Nagpur, IN

🎓 CGPA: 8.5

RELEVANT COURSES

- Data Structures & Algorithms,
- Object-Oriented Programming,
- Web Development
- Data science
- Business Economics

SKILLS

- **Programming Languages:** Java, C, Python
- **Web Development:** HTML, CSS, JavaScript
- **Software & Tools:** Photoshop, Canva
- **Data Science**
- **Business Economics**

LANGUAGES

- **Hindi**
- **Marathi**
- **English** (Understands well, improving spoken skills).
